

A Research and Innovation Company
"Providing Supplements and Ingredients
to the Nutraceutical Industry"

LipoLut®

LipoLut® - is a natural obtained and bioavailable composition form of carotenoids and fatty acids derived from vegetable sources.

A natural bioavailable form of carotenoids

Carotenoids are powerful antioxidants. Recent studies have shown the correlation between a diet rich in carotenoids and a diminishing risk of cardio-vascular disease, cancers, as well as ophthalmological diseases. A lot of studies demonstrated the antioxidant properties of the carotenoids and the role they play in preventing many pathologies linked to oxidative stress.

***UNIQUELY ENHANCED BIOAVAILABILITY COMPOSITION OFFERING MANY PERIPHERAL CLINICAL BENEFITS.**
