

PureWay®

- PureWay® significantly reduces body weight, waist and hip circumferences
- PureWay® significantly enhances the release of CCK
- PureWay® sustains a higher post-meal CCK level for a longer period of time
- PureWay® significantly lowers post-meal glucose
- PureWay® prior to a meal induced a significantly greater degree of fullness and decreased the motivation to eat
- PureWay®, a novel proprietary standardized combination of extracts, can be considered an effective complement to promote weight loss and weight maintenance, and as an effective adjunct to diet, exercise and weight loss programs
- PureWay® promotes satiety and healthy weight loss and is a valuable component of the nutraceutical industry
